The idea behind Grupa's Arigato lamp collection is to present a **stylized everyday object** inspired by the **shape of a person** bowing. Having become one of the most popular collections to date, Arigato was originally conceived for a **major renovation project** at the prestigious Dubrovnik Palace Hotel, where it helped add a **contemporary** touch to the rooms that welcome discerning visitors.

Functionality, innovation and **practicality** are the basic principles behind the design of Grupa, a studio founded in 2006 by three **designers** - **Filip Despot, Ivana Pavić and Tihana Taraba** - in the Croatian capital Zagreb. The line of lighting products designed by Grupa was born from the perfect fusion of **the pursuit of the beautiful** and **functional** and the **tradition of craftsmanship techniques**.
