Baluna is a **versatile** and **elegant** spherical-shaped lamp that allows you to **adjust the light** and **shape the atmosphere** as you prefer. Each lamp is **made entirely by hand**: each Baluna is carefully shaped and assembled by **skilled master craftsmen**.

Functionality, innovation and **practicality** are the basic principles behind the design of Grupa, a studio founded in 2006 by three **designers - Filip Despot, Ivana Pavić and Tihana Taraba** - in the Croatian capital Zagreb. The line of lighting products designed by Grupa was born from the perfect fusion of **the pursuit of the beautiful** and **functional** and the **tradition of craftsmanship techniques**.
