Team7's Kids line of furniture is born from real trees: after all, didn't you like to climb when you were a kid, too? Team7 knows how crucial it is for children to **grow up healthy**, surrounded by a **natural environment**.

That's why they make **bedroom furniture from pure natural wood**.

Their intent is not only to provide children with **valuable furniture**, but also to leave them with a world worth living in. That's why they only work with **wood from sustainable forestry** and set **high standards** for totally local production, both from an **environmental and safety standpoint**.

Sustainability, for Team7, also means **producing long-lasting furniture**: children's furniture is integrable and transformable, growing with your children and faithfully accompanying them for many years.

Oil-treated wood surfaces are repairable: even traces of prolonged use over the years can be easily removed.

And so, later on, nursery furniture can easily be passed from generation to generation.

The bedroom furniture is **tested** from the beginning in our in-house laboratory.

The bed system, crib and bassinet, tandem frame, desk and swivel chair, as well as the wall module, are certified with the

GS (geprüfte Sicherheit) mark to guarantee their safety. Corners and edges are rounded where necessary, creating harmony with the very linear design of the furniture. Careful craftsmanship brings out all the pleasantness to the touch that natural wood offers. Team7 furniture combines an **ecological philosophy** with a **contemporary lifestyle**

Team7 realizza solo **eco-friendly furniture** functional, capable of combining innovative aesthetics with state-of-the-art
