GALLERY IMAGES

Model is a line of three **floor lamps** with a **distinctly minimalist design** that stems from the desire to **transform a two-dimensional design** into an object. Each lamp is handcrafted from a single steel stem. The extremely refined design is perfectly suited to the finely crafted material. Free of unnecessary frills and with a deliberately essential appearance, Model is a **floor lamp with a strong character. Functionality, innovation and practicality** are the basic principles behind the design of Grupa, a studio founded in 2006 by three **designers - Filip Despot, Ivana Pavić and Tihana Taraba** - in the Croatian capital Zagreb.

The line of lighting products designed by Grupa was born from the perfect fusion of **the pursuit of the beautiful** and **functional** and the **tradition of craftsmanship techniques**.

Bulb and cable included.
